### RECITALS

GEHC has developed a proprietary magnetic resonance image (“**MRI**”) reconstruction software development kit which includes MRI reconstruction software on computer readable media, associated media, printed materials, and/or “online” or electronic documentation that enable end users to develop their own MRI reconstruction software (collectively, the “**Orchestra SDK**”).

Licensee desires to obtain a non-exclusive license from GEHC in order to use the Orchestra SDK to develop one or more MRI reconstruction software components to extend and customize GEHC’s MRI reconstruction software by adding specific desired features not originally provided by GEHC.

GEHC agrees to grant Licensee a non-exclusive license to the Orchestra SDK pursuant to the terms and conditions set forth herein that are designed to protect and retain for GEHC the benefit of GEHC’s substantial investment in the development of the Orchestra SDK.
